

ESG Flow — Analyst Briefing & Inclusion Kit

Verdantix Green Quadrant + IDC MarketScape Submission

1. Target Research Reports

Verdantix Green Quadrant

- **Report:** "Green Quadrant: ESG & Sustainability Reporting Software" (annual)
- **Contact:** Research team via verdantix.com/contact
- **Process:** Vendor briefing request -> Product demo -> RFI questionnaire -> Scoring -> Publication
- **Timeline:** RFI typically Q1, publication Q3
- **Fee:** Free for vendor participation (Verdantix-funded research)

IDC MarketScape

- **Report:** "IDC MarketScape: Worldwide ESG/Sustainability Performance Management Software"
- **Contact:** IDC analyst team via idc.com
- **Process:** Vendor invitation -> Detailed questionnaire -> Reference customer interviews -> Scoring
- **Timeline:** Rolling, typically 12-18 month cycle
- **Fee:** Free for vendor participation

Forrester Wave (stretch goal)

- **Report:** "The Forrester Wave: ESG Management Software"
 - **Process:** Vendor invitation only (need minimum market presence)
 - **Prerequisite:** Minimum \$10M ARR or 100+ enterprise customers typically
 - **Action:** Request inclusion for next cycle, provide customer references
-

2. Analyst Briefing Deck — Key Slides

Slide 1: Company Overview

- **Founded:** 2024, Paris France
- **Mission:** Democratize ESG compliance for European SMEs & ETIs
- **Team:** Engineering-first, ex-BPI France / Station F alumni
- **Funding:** France 2030 laureate

Slide 2: Market Positioning

- **Segment:** SME + Mid-market (10-5000 employees)
- **Geography:** France (primary), EU (expansion)
- **Price point:** 199-499 EUR/month (vs 36K-250K/year competitors)
- **Differentiator:** Most comprehensive platform at accessible price

Slide 3: Product Capabilities (for scoring grid)

Capability	Status	Detail
CSRD/ESRS Reporting	GA	82 requirements, gap analysis, report builder

Carbon Accounting (S1/2/3)	GA	15 Scope 3 categories, ADEME factors
Life Cycle Assessment	GA	142 impact factors, 7 stages, ISO 14040/14044
EU Taxonomy Alignment	GA	6 environmental objectives, DNSH criteria
Double Materiality	GA	Drag & drop matrix, stakeholder surveys
SBTi Target Setting	GA	1.5C/WB2C trajectories, 24 actions + ROI
Supply Chain ESG	GA	Supplier scoring 6 dimensions, due diligence
AI/ML Capabilities	GA	Chatbot, anomaly detection, narrative gen, predictions
Multi-Framework	GA	16 frameworks (CSRD, GRI, CDP, TCFD, SFDR, ISSB...)
Data Connectors	GA	34 native (ERP, CRM, HR, Energy, Carbon, Accounting)
Audit Trail	GA	SHA-256 integrity, ISAE 3000 compatible
iXBRL Tagging	GA	ESEF-compatible digital reporting
Benchmarking	GA	15 sector baselines (ADEME/CDP/MSCI/GRESB)
Data Quality	GA	Completeness scoring, anomaly detection, ML validation
Risk Management	GA	Probability/Impact matrix, mitigation plans
Stakeholder Engagement	GA	Surveys, materiality assessment, public portal

Slide 4: Technical Architecture

- **Stack:** FastAPI + PostgreSQL + Redis + React + TypeScript
- **Security:** Multi-tenant RLS, RBAC, 2FA, SHA-256 audit trail
- **Hosting:** France (ISO 27001 datacenter), zero US cloud
- **API:** 298 REST endpoints, OAuth2, webhooks, API keys
- **AI:** OpenAI GPT-4o-mini (EU endpoint), rule-based ML, anomaly detection

Slide 5: Customer Success Metrics

- Time to first CSRD report: < 3 days (vs industry avg 3-6 months)
- Data collection automation: 70% reduction vs manual
- Audit preparation time: -80% (SHA-256 + structured export)
- ESG score improvement: +40% avg in first 3 months

Slide 6: Roadmap (12 months)

- Q3 2026: Mobile app (PWA), carbon credit marketplace integration
- Q4 2026: Advanced LCA (EPD generation, PEF compliance)
- Q1 2027: Expanded connector library (60+), EcoVadis data import
- Q2 2027: Multi-language (DE, ES, IT), expanded emissions factor DB (10K+)

3. RFI Response Template

Company Information

Legal Name: GreenConnect SAS
Trade Name: ESG Flow
Year Founded: 2024
HQ: Paris, France

Employees: 5-10
Annual Revenue: [confidentiel]
Customers: [nombre] organizations
Countries: France (expanding EU)

Product Information

Product Name: ESG Flow
First GA Release: 2024
Latest Version: continuous deployment
Deployment: SaaS (cloud), Private cloud (Enterprise)
Languages: French, English
Uptime SLA: 99.9% (Enterprise)

Differentiators (for analyst messaging)

1. **Price-to-feature ratio:** 16 frameworks + 46 modules at 199-499 EUR/month is unmatched. Closest comparable (Greenly) covers 6 frameworks at 3,800-12,000 EUR/year.
 2. **Data sovereignty:** 100% French hosting, zero US cloud dependency. Critical for EU regulated entities post-Schrems II.
 3. **All-in-one depth:** From data collection to certified report — no need for separate carbon, LCA, supply chain, and reporting tools.
 4. **LCA integration:** 142 impact factors with eco-design recommendations built into the ESG workflow. Most competitors treat LCA as a separate product (Greenly LCA Hero, Sphera).
 5. **AI-native:** Not a bolt-on. AI chatbot, anomaly detection, CSRD narrative generation, and predictive analytics are core features from day one.
-

4. Action Items

Immediate (Week 1-2)

- ☐ Create G2 vendor profile at <https://sell.g2.com>
- ☐ Create Capterra vendor profile at <https://www.capterra.com/vendors/>
- ☐ Send 10 review requests to existing users
- ☐ Schedule Verdantix analyst briefing (email research@verdantix.com)

Short-term (Month 1-2)

- ☐ Submit Verdantix Green Quadrant RFI
- ☐ Contact IDC ESG analyst team
- ☐ Reach 10+ G2 reviews threshold
- ☐ Add G2/Capterra badges to landing page
- ☐ Publish 2 customer case studies

Medium-term (Month 3-6)

- ☐ Achieve G2 "High Performer" badge
- ☐ Complete IDC MarketScape questionnaire
- ☐ Reach 25+ verified reviews across G2 + Capterra
- ☐ Submit for Forrester Wave consideration (if ARR qualifies)

- ☐ Apply for Gartner Peer Insights listing

KPIs to Track

Metric	Target Q3 2026	Target Q4 2026
G2 Reviews	15+	30+
G2 Rating	4.5+	4.5+
Capterra Reviews	10+	20+
Analyst Reports Included	1	2+
G2 Badges	High Performer	Leader (category)
